RECIPROCATING FEEDERS "AC" SERIES

FOR THE DOSAGE OF MATERIALS EVEN WET AND EARTHY

- regular feeding even with materials smooth, moist and earthy
- flow rate regulation by varying the cart ride amplitude and the movement frequency
- easily replaceable anti-wear steel linings

| TYPE* | Useful width of the upper passage (mm) | Max. capacity (mc/h) | Power of the electric motor (Kw)** |
|-------|---|-------------------------|---------------------------------------|
| AC 45 | 450 | 30 | 1.1 |
| AC 60 | 600 | 70 | 3 |

* The models shown are standards that can be adapted and modified according to specific customer needs. ** with servoventilation and inverter speed regulation.
